👛 PROFESSIONAL EXPERIENCE

iMentus Technologies

Associate Software Engineer

05/2022 – present | Indore, India

Responsible for:

- Developing and implementing highly responsive user interface components using react concepts.
- Writing application interface codes using JavaScript following react.js workflows.
- Troubleshooting interface software and debugging application codes.
- Developing and implementing front-end architecture to support user interface concepts.
- Monitoring and improving front-end performance.

📁 PROJECTS

Ecommerce Website

2022

Tools & Technologies: React, HTML, CSS, Bootstrap, Redux

Role: Junior Web Developer

I took the initiative to develop an impressive e-commerce website from scratch, utilizing React, Redux, and Bootstrap to create a seamless and visually appealing user experience.

Gambling Dapp

2022

Tools & Technologies: HTML, React, CSS, Bootstrap

Team Size: 3

Role: UI Developer

For a US-based client, we have created a Trading App based on cryptocurrency. We used the Apexchart library for graph and crypto compare API for live data feeds of cryptocurrency prices. Users can see the history of bidding. Integration with solidity contract. Setting up wallet integration like connecting wallet disconnecting wallet claim winning tokens and many more.

Carbon Emission

2023

Tools & Technologies : Angular, HTML, CSS, PrimeNG

Team Size : 4

Role : UI Developer

As a key member of a dedicated team, I played a pivotal role in developing the Carbon Emission website using Angular for the UI and PrimeNG for enhanced user interface components. The backend was implemented using .NET Core, creating a robust and efficient system.
